INSTALLATION

<p>Remove the ceiling tile where the product is to be installed and raise product above the bar.</p>	<p>Place one of the product onto the T-bar. To secure the luminaire's position in ceiling, squeeze tabs into T-bars to lock fixture.</p>	<p>After securing the product on the T-bar, secure panel to ceiling with aircraft cable or wires capable of supporting 100 lbs minimum.</p>
<p>Open the cover of the UL LED driver box and install appropriate strain relief for your installation through knockouts.</p>	<p>With power turned OFF at the breaker, feed power leads through strain relief and cover plate, then secure. Using wires/nuts, connect power leads to drive according to wiring diagram.</p>	<p>Ensure fixtures are properly secure to T-bar grid/ceiling using wire or aircraft cable capable of supporting 100 lbs minimum.</p>

SUSPENSION

<p>Pull the ball end of the steel wire through the hole of the mount bracket of panel</p>	<p>Place the other end of the steel wire through the wire holder and adjust the length of the steel wire</p>	<p>Mount the sleeve anchor bolt into ceiling</p>	<p>Hang the wire wire holders to the sleeve anchor bolt</p>

RECESSED MOUNT - T GRID

CEILING MOUNT (MOUNTING KIT SOLD SEPERATELY)
